USED CAR INTERNET DOMINANCE!

The KAHR Alliance can drive 30+ Phone Ups EVERY DAY (Monday through Friday) to your dealership. Today a majority of USED CAR discovery and buying decisions are made on the web. THE KAHR ALLIANCE MANUALLY POSTS YOUR DEALERSHIP'S ENTIRE USED CAR INVENTORY ONLINE EVERY DAY (very labor intensive). No need to wait 7 days to post your entire inventory. Postings are done to the most popular classified websites like Craigslist, Backpage, Oodle Marketplace, etc...

Each of our Dealer Partners on the Core Posting Program:

- Average 20 to 30 Phone Ups Every Day (400 to 600 leads per month includes: Phone Ups, Email Leads & Credit Applications)
- Average of 80 to 120 Appointments per month
- Average 20 to 30 Sold Cars per month
- Average \$50,000 to \$75,000 Gross per month
- Average 500% to 1000% Return On Investment (ROI)
- Average 1,000+ Increased Website Views per month

Every Phone Up from The KAHR Alliance's program gets assigned a dedicated local number, which does several things:

1. Brands your Dealership with the local community.
2. Get access to the dealer dashboard which tracks and records all Phone Ups in real-time.
3. All Phone Ups are recorded so management can monitor salespersons conversion techniques further improving sales.
